Welcome to all attendees.

On behalf of OCEAN User Group, I would like to welcome you to our 12th annual *Catch the Wave* Technical Conference. Our seminar attendees will have the opportunity to learn from some of the top trainers and subject matter experts in the world for IBM iSeries Application Development and iSeries Security.

Back by popular demand, Bob Cozzi, has been highly sought after for his technical know how and ability to convey the benefits and understanding of using the latest application development tools for the IBM iSeries.

In addition, we have rounded out a lineup of some of the industry's finest IT trainers and subject matter experts. There truly will be something for everyone, from Programmer Analysts and Developers to IT Management to IT Support staff.

Bob Langieri
Conference Chairman
